Tools and services to enhance collaboration between Europe and Latin America in research activities

- Allows easy and unified access to advanced networks through Authentication and Authorisation Infrastructure (AAI) federations in Latin America and their integration with their global peers via the GÉANT eduGAIN interederation service.
- Empowers NRENs and their research communities by offering collaboration tools delivered by a SaaS Cloud across partners in Latin America and Europe.
- Fosters the deployment of the eduroam service in Latin America.
- Promotes collaboration between Latin American and European researchers.

Go further with your research:

Tailored tools → Collaboration → Enhanced research

TOOLS

The project provides collaborative research environments available anytime, anywhere. ELCIRA fosters sharing, linking and collaboration between Europe and Latin America, enhancing NREN services in a seamless fashion and empowering your research experience.

- 1**

Identity Federations

No need for separate log-on credentials for the many online services you need to access. Connected to eduGAIN
- 2**

Social platform for research

Tailored services that support collaboration in a protected web-based environment
- 3**

Integrated global web conference service

A high quality tool to hold virtual meetings and to share documents and notes anytime, anywhere
- 4**

eduroam

A secure, world-wide roaming access service developed for the international research and education community
