A decorative graphic on the left side of the slide features a glowing white cross in the center, surrounded by blue and white binary code (0s and 1s) and abstract circuit-like patterns. The background is a gradient of blue and white.

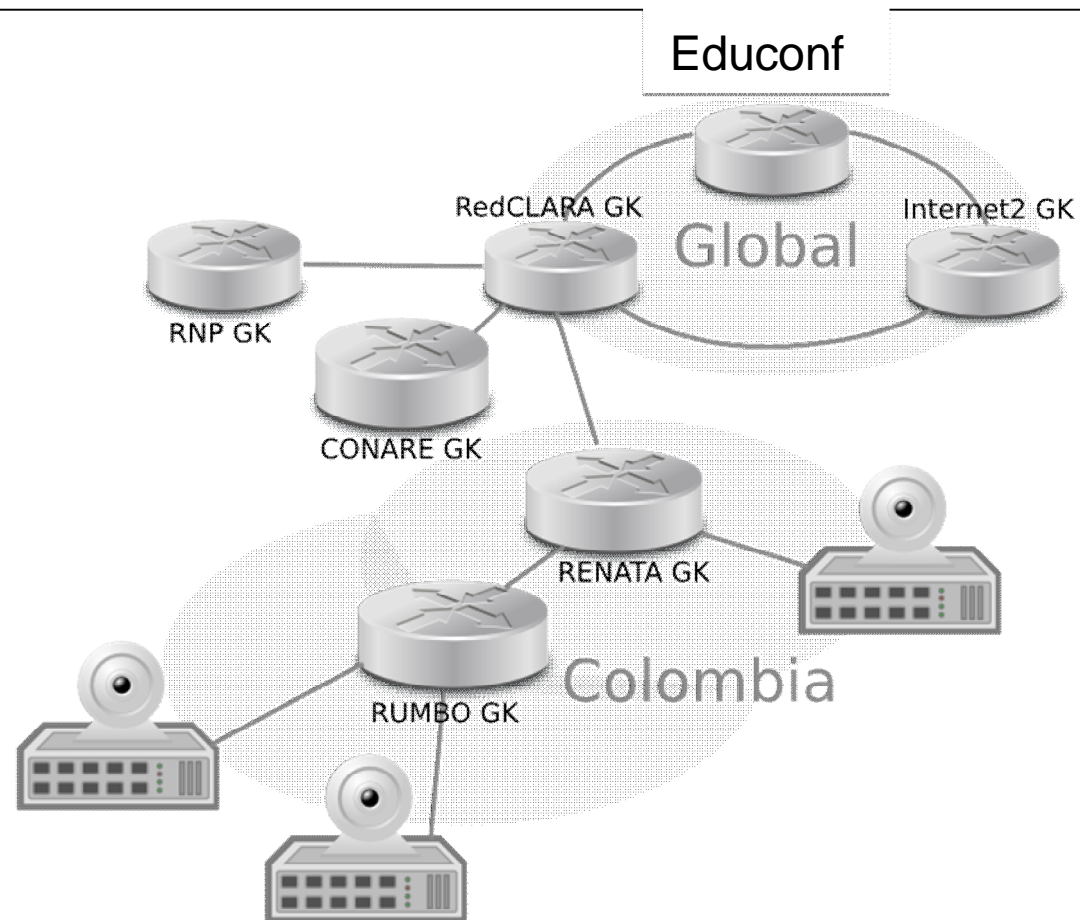

ELCIRA WP3 update meeting, Feb 27

Dialing infrastructure

- **Dialing infrastructure**
 - Latin-American GK deployed
 - Integrated with RNP, CUDI, CONARE, RENATA in GDS
 - NRENum done with RENATA
- **Dialing from Europe to Latin-America**
- **Pending**
 - NRENnum with CONARE

Gatekeeper network

Directory integration

- **Directory integration**
 - This work depends on recent changes in the directory on EduCONF, and the development of an integration API under progress in the Global Video Alliance (GVA) group.
- **Pending**
 - API deployment

Deliverable

- D3.3 Guidelines for exchange points and GDS architecture for an integrated HQVCS between Latin America and Europe
